Data Assessment

🏠 Home (https://www.fidelissupport.com/) / Data Assessment

Fidelis Support – Data Assessment

In today's legal landscape, there is a strong move towards electronic data with many documents now initially and sometimes only being available in an electronic format. Unlocking the invaluable information contained in these files could make or break your case and greatly assist you in building a strong position.

Fidelis Support can rapidly and cost-effectively capture and analyze your electronic data from any of your case sources such as audits, investigations, and litigation.

E-Discovery Services

Fidelis Support provides electronic discovery services through a client-focused approach that facilitates collaboration and case management efficiencies and reduce costs. Our team has extensive industry experience, and they will delivery high quality results while freeing up your important case tasks.

Your data may be in a wide range of formats and we are able to collect, process, identify and store information for discovery purposes from

- Audio and Video recordings
- Digital Documents
- Databases
- Emails
- Social Media
- Websites
- Voicemails

Additionally, electronic data often contains forensic information and metadata that can provide further context such as author and recipient timestamps. We ensure these details are preserved and captured during collection so they can be used for analysis and ultimately converted to redaction and submission.

Benefits of Early Data Assessment

Early Data Assessment (EDA) or Early Case Assessment (ECA) as it is also called facilitates the processing and analysis of all the data collected through discovery services. An experience data assessment expert will be able to review and distill insights from the data to show you exactly what your case, giving you an edge when planning your strategy.

Fidelis Support will be able to ensure you have access to all the information you need, thus reducing your workload and lowering your costs prepared for any situation. EDA will always be based on your individual needs and includes tasks such as:

- Creating easy to use data sets through the efficient processing of the data.
- Ensuring the safe storage of your data in a secure environment
- Ensuring key players have the information flow necessary through customized reports that represent important data and trends allc quantify issues.

About Fidelis Support

We provided solutions for supporting the legal community via our team's real-world experience in litigation and document management su ensure you will exceed your e-data needs by providing you with the expertise and advanced techniques so contact us today to schedule a evaluation.
